SELECTED RECOMMENDATIONS

Jonah Becker // VP, Industrial Design at Fitbit

Jeff spent a year as a graphic design contractor on my communications design team, and he supported a range of branding and packaging projects. Jeff is organized, professional, hard-working, and talented. He consistently delivered very high quality work and was a great person to have in the studio

Trevor Hacker // Art Director at Audi Magazine

Jeff was a hard working designer while interning with SFAI's communications department. He was able to work under difficult time constraints and always brought several concepts to the table for review. He had a positive attitude around critiques and feedback he was given. Jeff was also very enthusiastic about taking on new projects. Thank you!

SELECTED EXPERIENCES

HTC HQ // Taipei, Taiwan

2015 Spring, Packaging Designer

Working with the industrial design and packaging team on packaging design and packaging CMF research. Also accompanied designers to factories met with vendors for study of new materials, and built a good work relationship with vendors.
